Subject: FW: request from Dr. Akiyama

Dear Kohji:
I will be converting the posters to pdf format on Tuesday and will post them to the WSA shared folder. I will send you shortcuts as soon as that has been completed.

I hope all is well with you.

Best regards,
Valerie

Dear Kohji,

I have talked to Urs and he is fine with us sharing the published posters. I will ask by this note Valerie to send you the posters electronically so you can hand them over (with my best regards) to Dr. Akiyama.

Until soon,
Roger

Subject: FW: request from Dr. Akiyama

Dear Urs,

We suggest to share the poster information (a) AFTER the presentation in the public conference with the scientists of JT. Please let me know, if you have any comments on this.

(a) We are presenting 5 posters on biomarkers in human studies such as those used in the TES at the symposium on 'Biomarkers of Tobacco Exposure' in Minnesota, Oct. 25./26., 2001. 2 posters that show details of the design of the Total Exposure Study are 'repeats' of the ones we have shown in Brisbane in August, which were attended by JT scientists.

Best regards,
Roger

Subject: request from Dr. Akiyama

Dear Roger,

Dr. Akiyama called me and said that,

> he would appreciate it very much to receive presentation materials by PM at the Minnesota Biomarker Meeting, after they are presented.

Source: https://www.industrydocuments.ucsf.edu/docs/gfck0001

As for the background for this request, he said that originally he asked some of his people to attend, but as it turned out they could not make it because of the company's restrictions on the air-travel.

Please let me know whether or not we can cope with his request.

Best regards,
Kohji
